

AGM to highlight important beef topics

(Calgary, Alberta) November 27, 2009 – It was a tumultuous year for beef producers and for ABP. With drought widespread across Alberta, cattle producers were facing feed shortages in some areas as they moved into the fall. Within our organization, we faced new legislation making the ABP service charge refundable.

These issues, plus resolutions and speakers will make up the Annual General meeting that takes place at the Sheraton Cavalier Hotel in Calgary, December 7-9.

All producers are invited to attend the meeting, along with media and other interested participants.

Attached to this email is a copy of the AGM agenda as well as the list of resolutions to be debated at the AGM floor.
